

Mateen Abbasi

Objectives

- To improve educational equity and health outcomes through mentorship, hands-on training, and innovation in healthcare delivery
- To create inclusive systems that empower underrepresented students and deliver free, accessible care to marginalized populations

- ✓ Social Equity
- ✓ Access
- ✓ Innovation

Overview

Mateen's primary contributions include creating inclusive academic pathways, optimizing community health outreach through clinical innovation, and leading efforts that support minority representation in healthcare—all underpinned by strategic leadership, mentorship, and systems change.

RUTGERS

Ernest Mario School
of Pharmacy

Impact/Results

- **Mentored 10+ underrepresented students** in STEM through the Rutgers ODASIS (Office for Diversity & Success in the Sciences)
- **Trained 350+ students on preventive health screening** for APSEA (American Preventive Screening & Education Association)
- **Organized 40+ community screenings** and provided free preventive healthcare services to **1,000+ patients in underserved communities** in and around the New Brunswick-area
- **Streamlined data research efforts** to analyze the efficacy of our community intervention at APSEA with new data collection forms
- Coordinated an outreach initiative at Rutgers NAACP (National Association for the Advancement of Colored People) through strategic coordination of 3 Rutgers PharmD organizations to **increase diverse representation within the pharmaceutical profession**; awarded \$500 stipend from Rutgers ISGRJ
- **Co-directed the largest student-run pharmacy networking event** at Rutgers AMCP (Academy of Managed Care Pharmacy), overlooked 20+ volunteers, \$3,000 in sponsorships, and 120+ attendees to **empower future student pharmacy leaders**
